

I write as a mother, and as president of our local public charter school. Klove radio has a positive impact on my children and the children in my community. It gives them a place to find non-violent, non-sexual content from a broadcaster. I believe the continued ability of Klove radio to reach areas such as ours by FM translator is important, and should be preserved. There is no other non-commercial broadcaster in our area that provides the same quality of music and entertainment.

Thank you for your consideration,
Sincerely, Jennifer Paulos
